

THE DUX BED

BED SPECIFICATIONS & PRICING GUIDE

THE DUX® BED: SETTING THE STANDARD FOR OVER 95 YEARS

Since 1926, four generations of the Ljung family of Sweden have been committed to producing the most technologically advanced, long-lasting beds on the market. Every aspect of The DUX Bed is a direct result of over 95 years of science, research, and testing.

The following information will outline the importance of Correct Sleep Posture and the vital role sleep plays in your health and well-being.

The DUX Bed's dynamic spring system provides the ultimate in comfort by acting as a suspension system for your body. It adjusts to your contours, providing continuous support along every inch of your body.

The DUX Bed is designed to help ease pressure on your back, to keep your spine in line and to distribute your weight evenly to maximize circulation. The result is a bed that can help you fall asleep faster and stay in deep sleep longer, so you wake up feeling refreshed and restored.

Visit a DUXIANA® store near you and discover why The DUX Bed is more than just a bed, it's the first step to a better, healthier way of living.
