

THE DUX BED

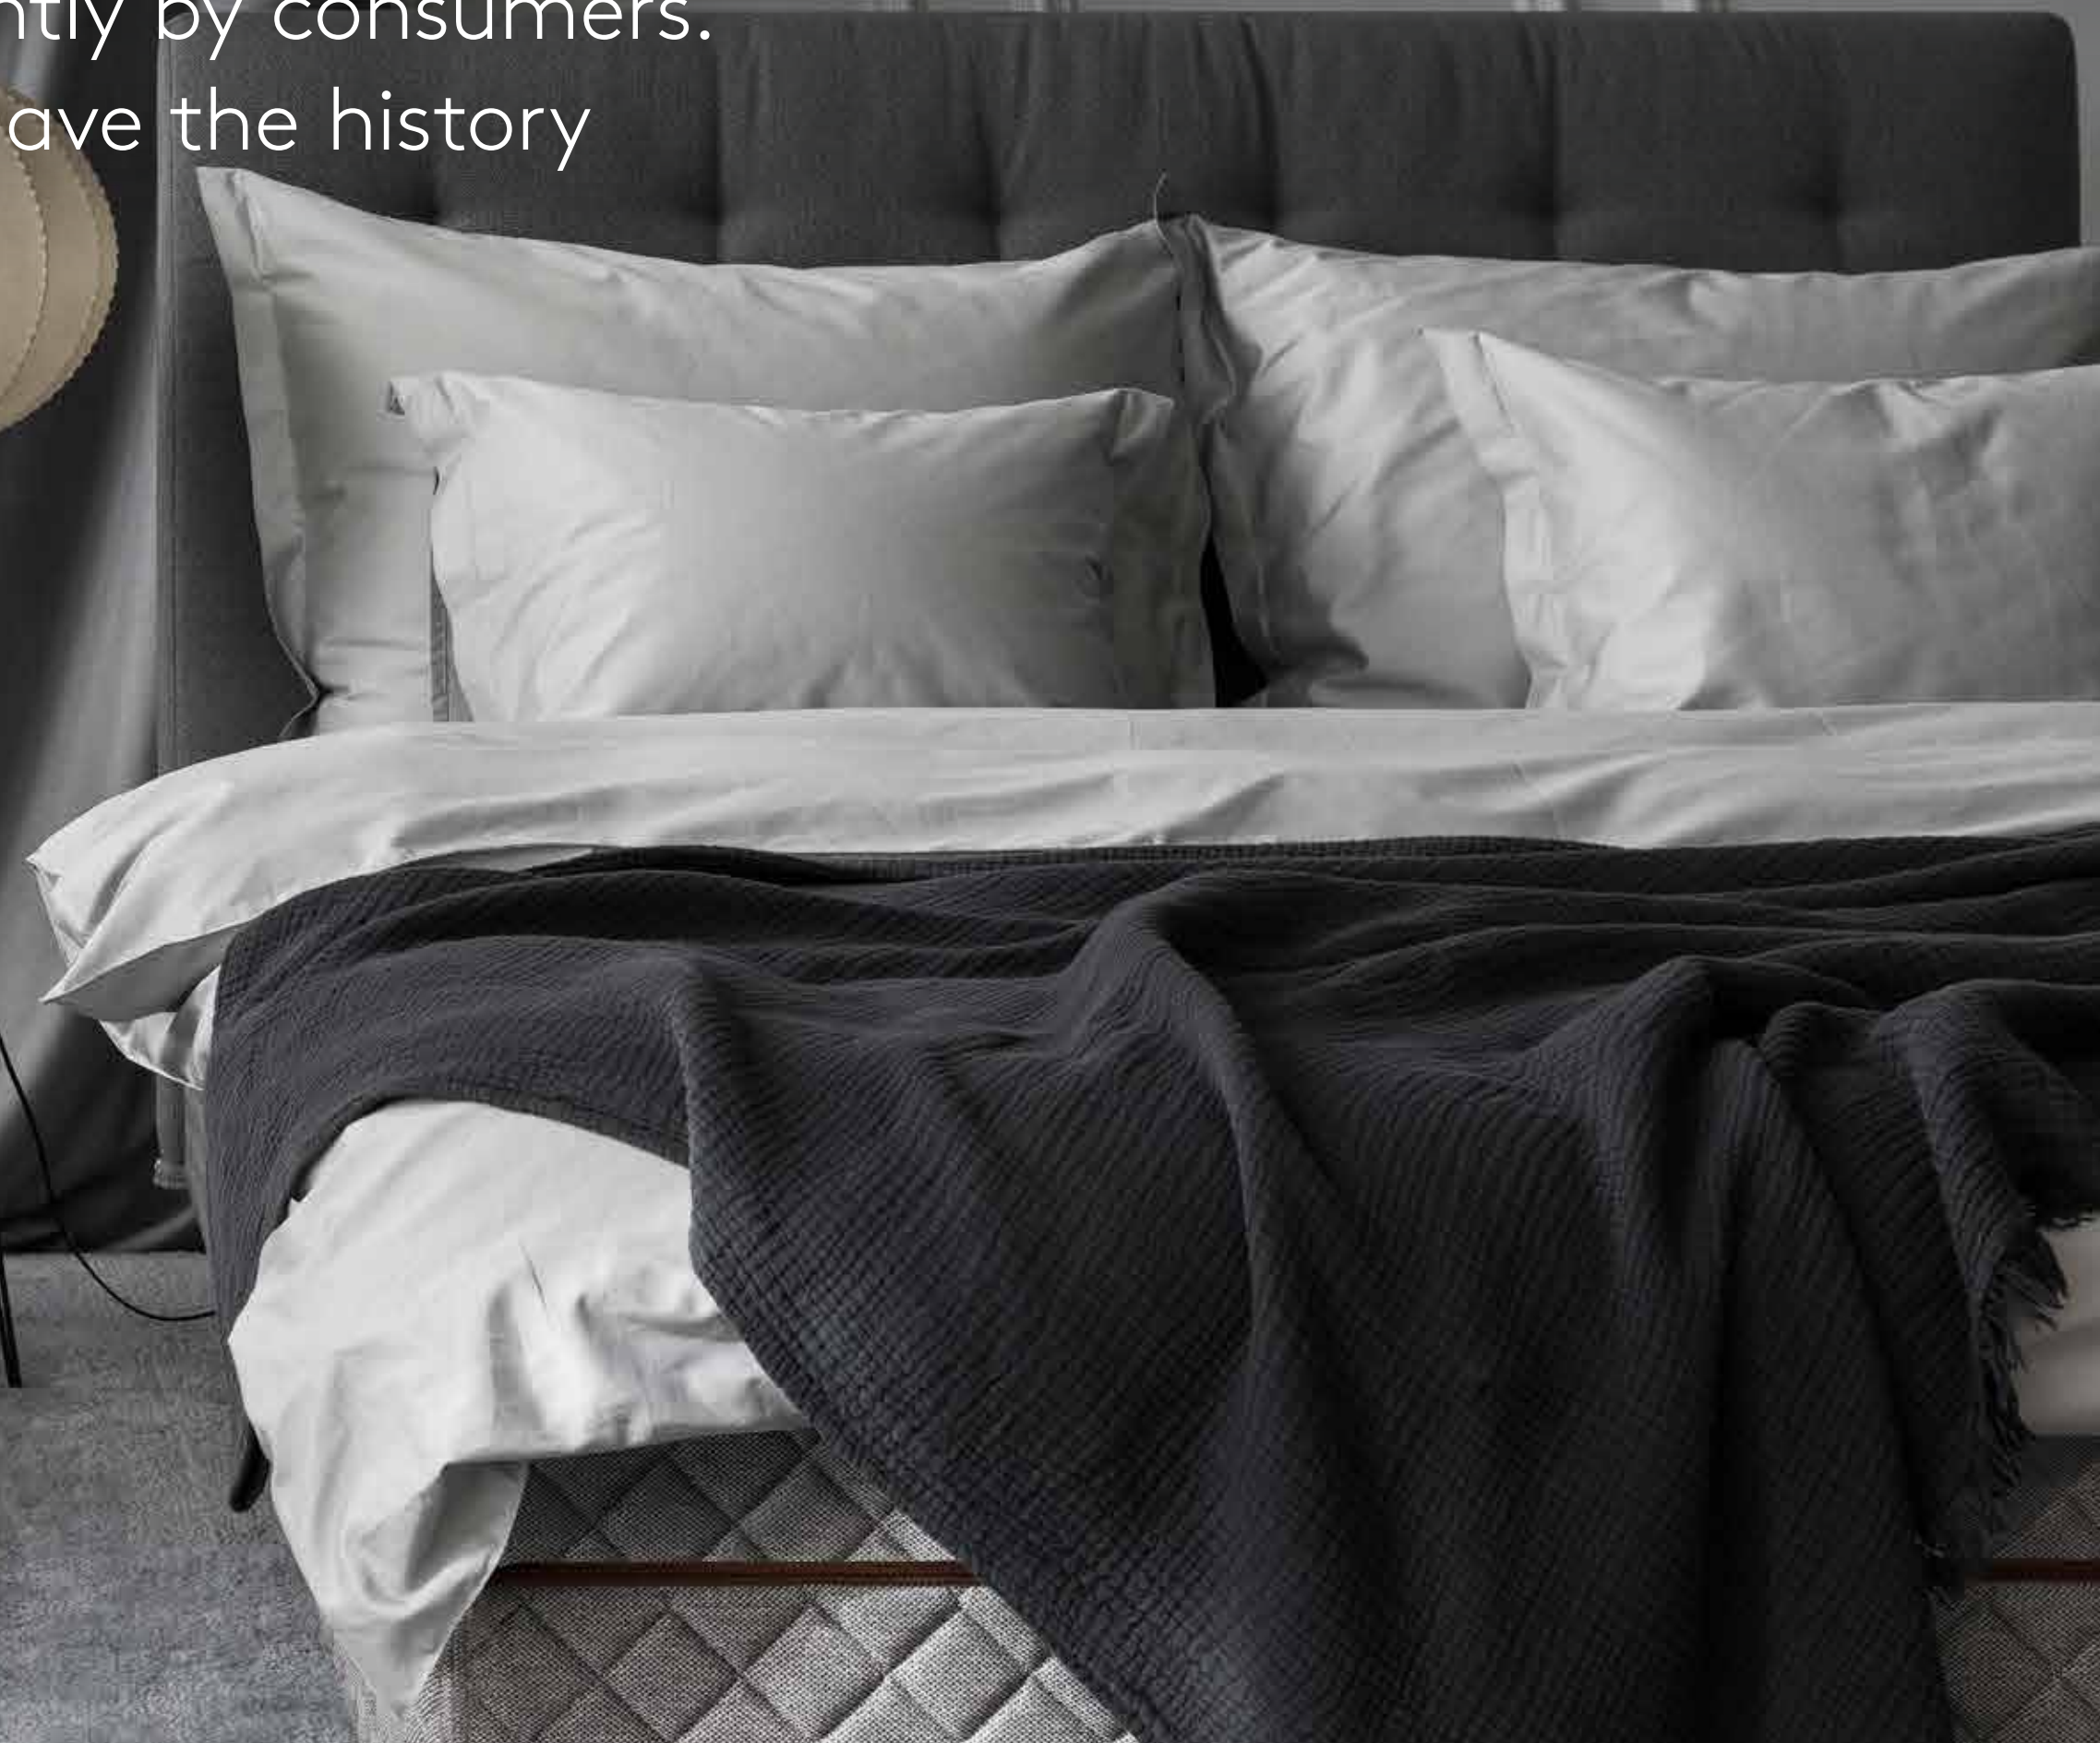

DUX OF SWEDEN

Since 1926, four generations of the Ljung family of Sweden have aspired to produce the most comfortable and technologically advanced beds on the market.

As a privately owned company, DUX's only responsibilities are to our customers and to the integrity of our product. For over 90 years, we have studied ways to blend the science of sleep with the ultimate in luxury and comfort. Our philosophy has always been that deep sleep can only be achieved through a full understanding of the needs of the body.

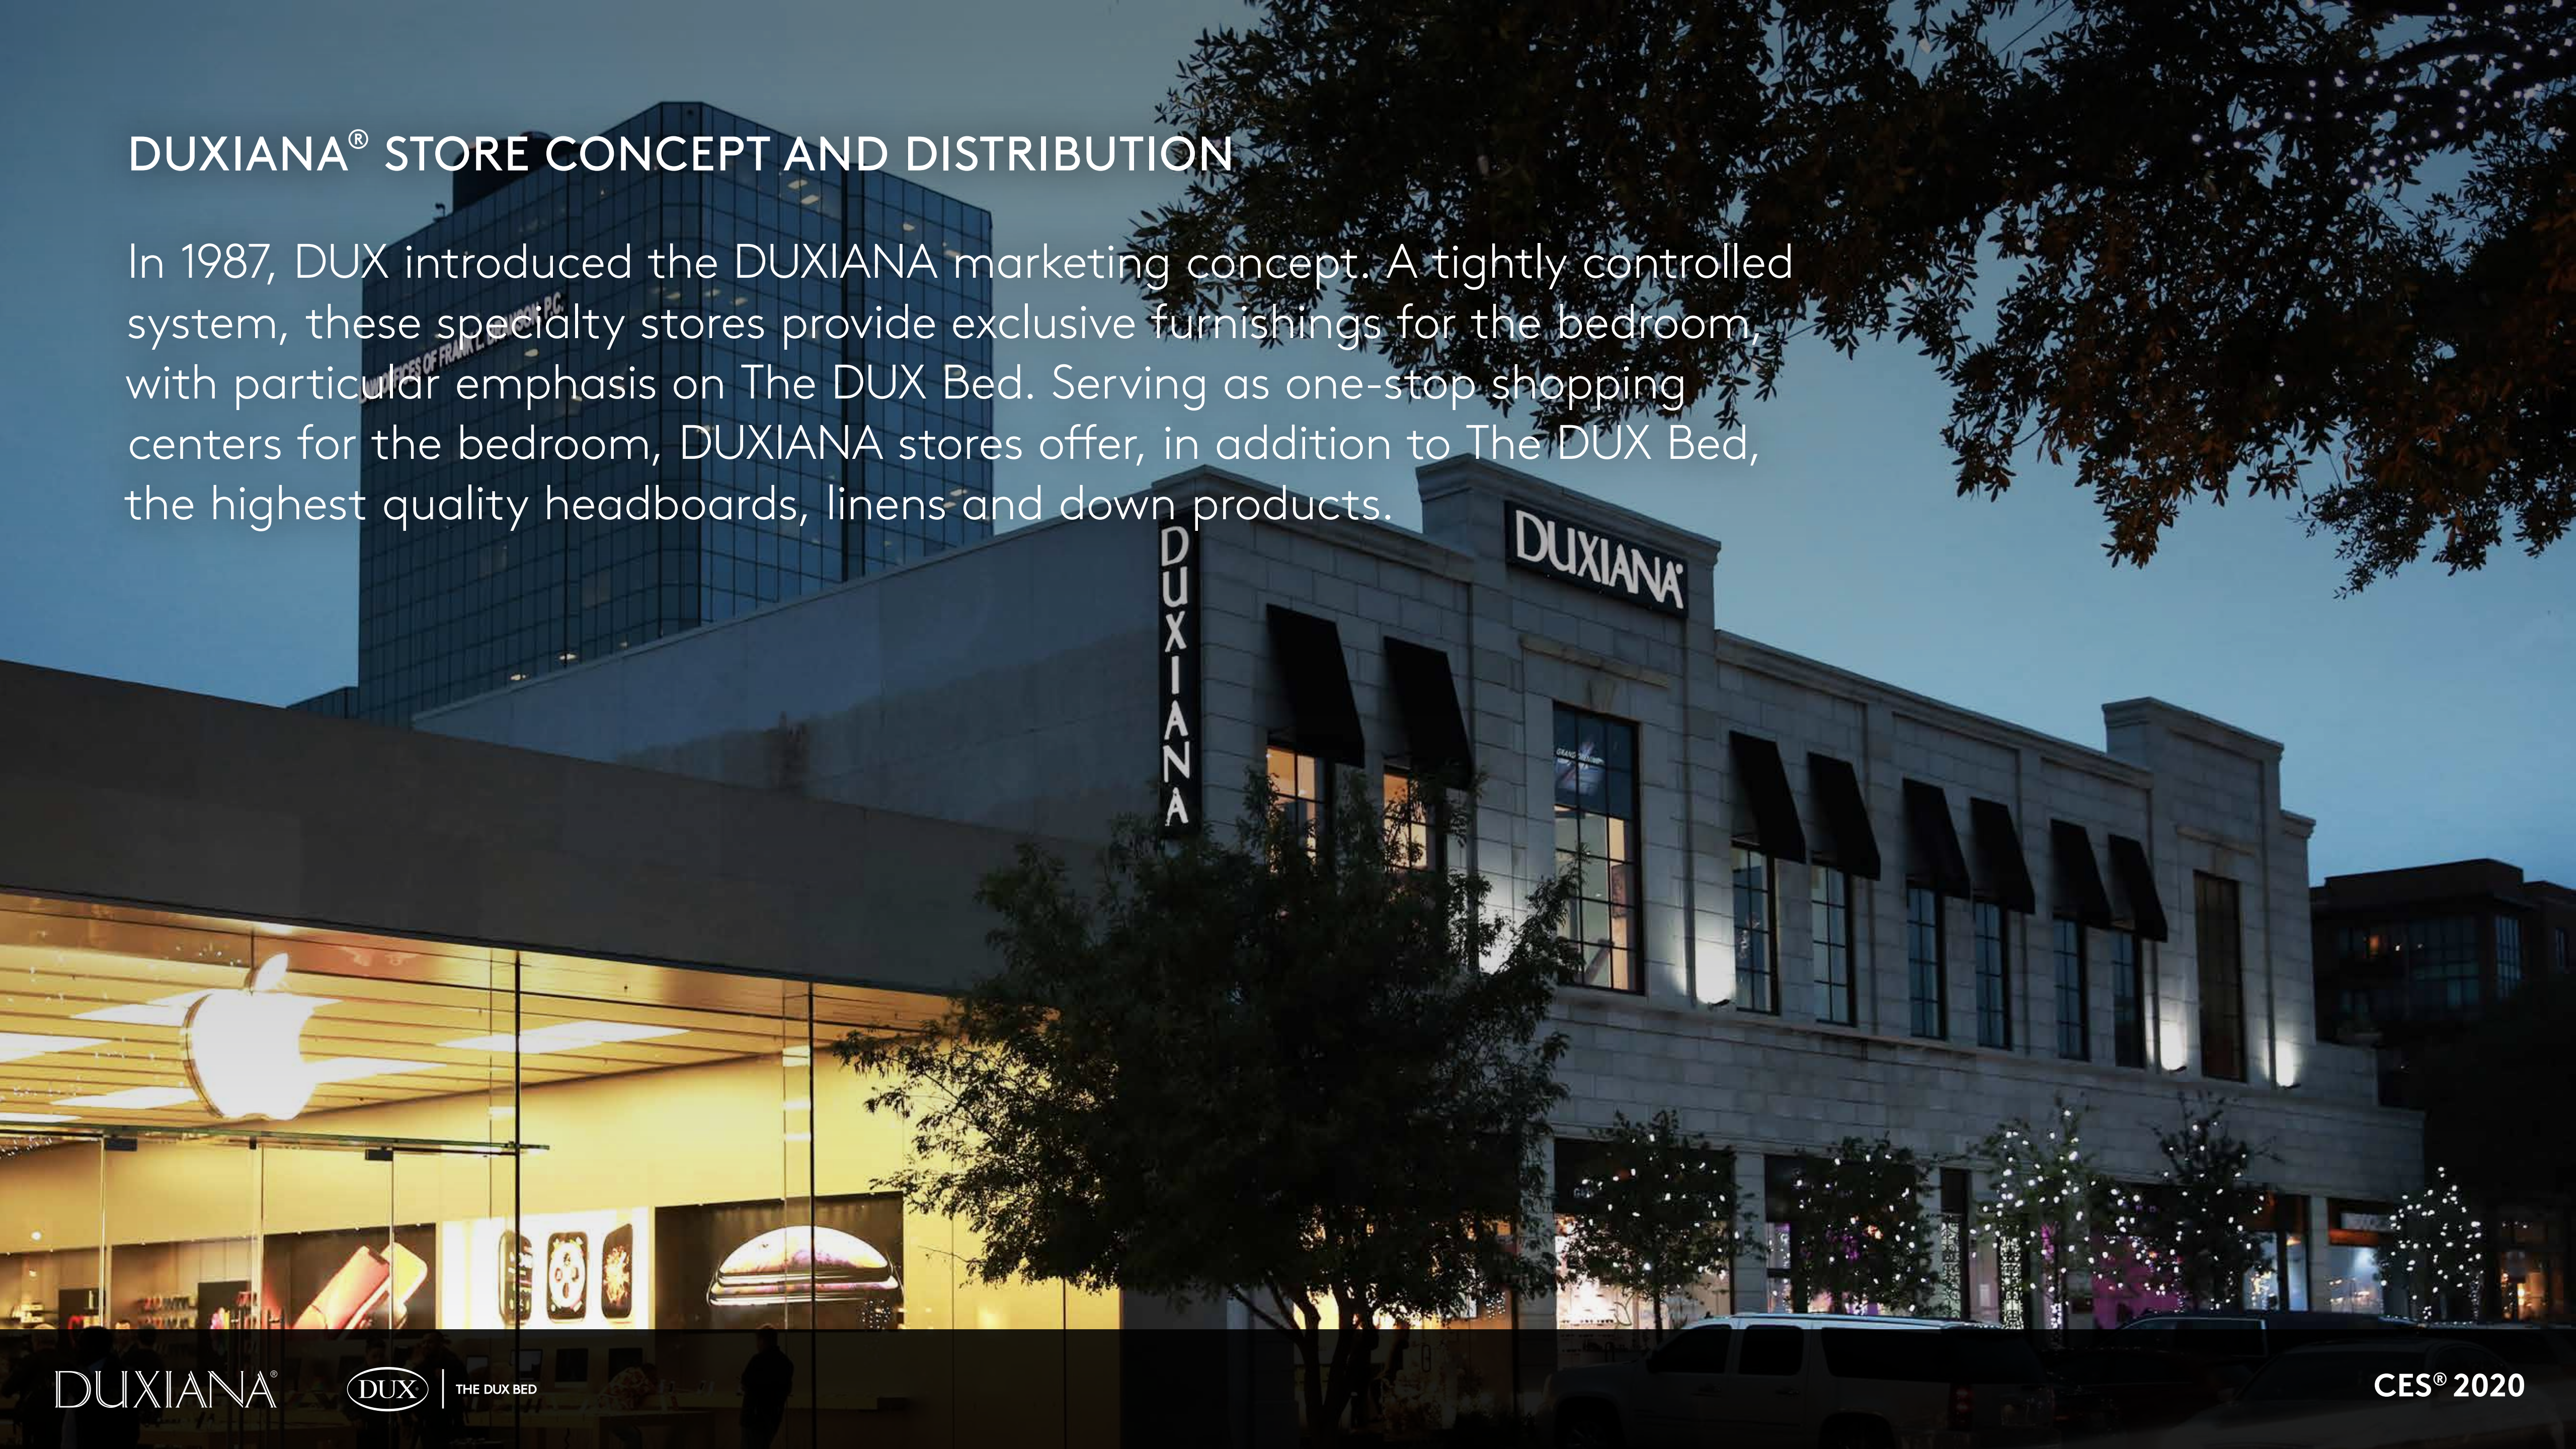

WHAT WE DO: THE DUX BED

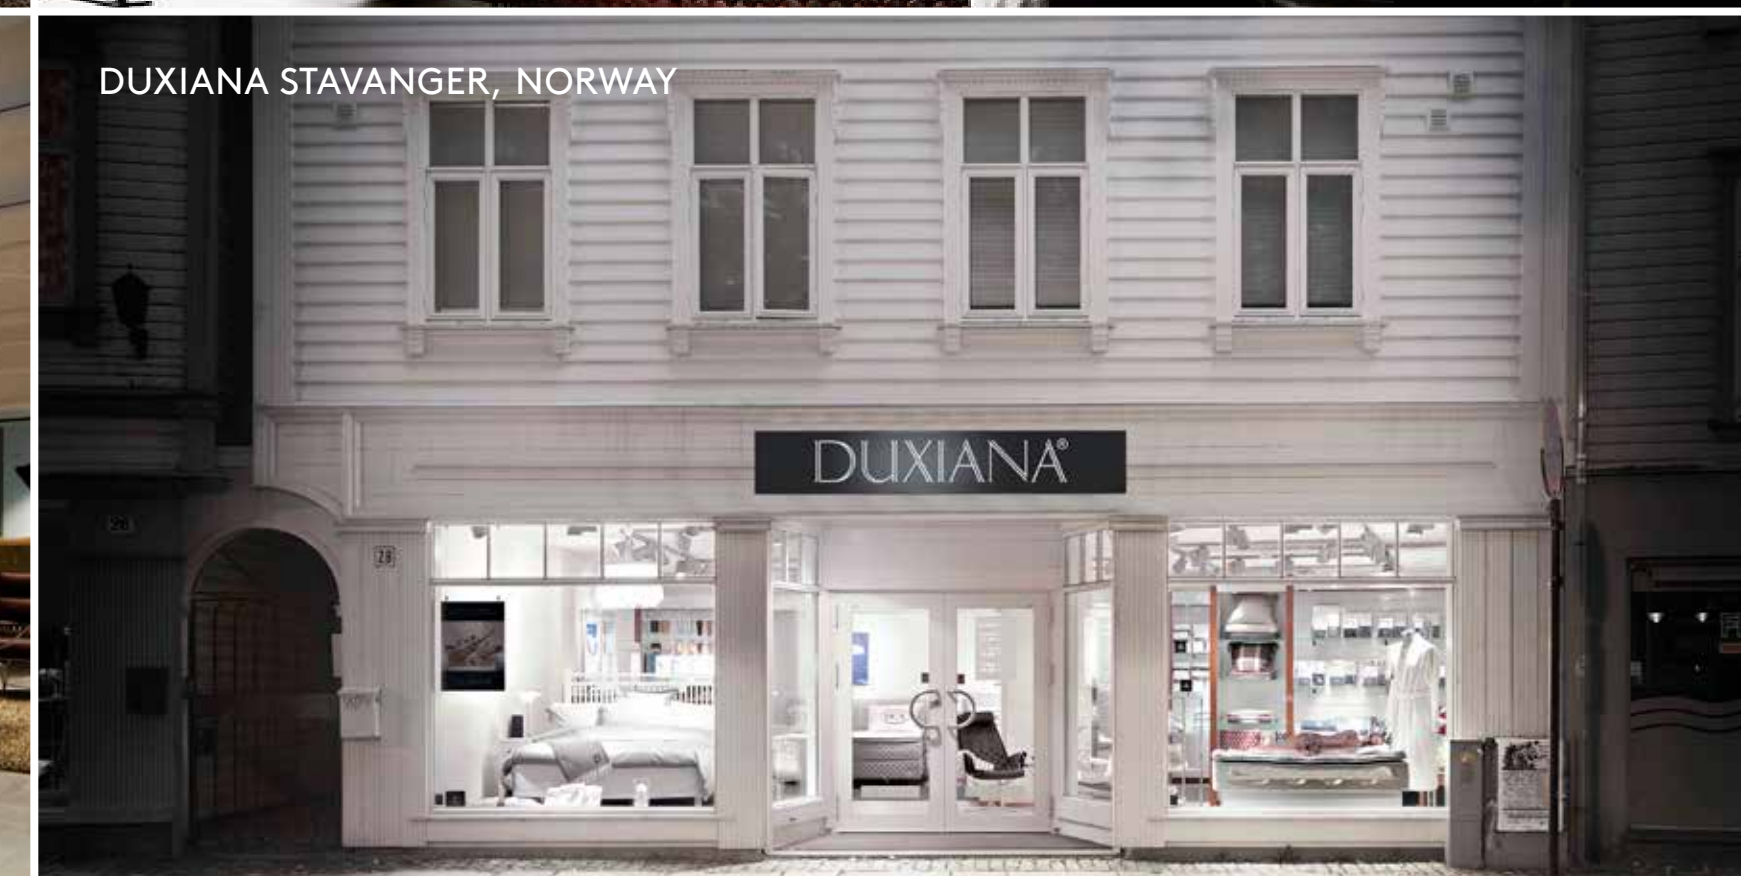

Our quest to evolve our products in order to increase their quality, performance and comfort is unceasing. The DUX Bed has been thoroughly vetted and tested — by the scientific community, but more importantly by consumers. The results are clear: DUX delivers what it promises and we have the history to prove it.

DUXIANA® STORE CONCEPT AND DISTRIBUTION

In 1987, DUX introduced the DUXIANA marketing concept. A tightly controlled system, these specialty stores provide exclusive furnishings for the bedroom, with particular emphasis on The DUX Bed. Serving as one-stop shopping centers for the bedroom, DUXIANA stores offer, in addition to The DUX Bed, the highest quality headboards, linens and down products.

LUXURY HOTELS: THE WORLD'S MOST PRESTIGIOUS HOTELS TRUST DUX®

The DUX Bed is available in over 100 luxury hotels worldwide. DUXIANA actively encourages DUX Owners and prospects alike to travel to these destinations with The Hotel Stay Program.

THE DUX BED: CORRECT SLEEP POSTURE AND SPINAL ALIGNMENT

The DUX[®] Bed: Unmatched Comfort Through Proper Support

LEGS: The DUX Bed elevates your legs so your spine can lie in its natural position for Correct Sleep Posture.

HIPS: In The DUX Bed your hips are able to sink in. This lets them rest in a vertical position, which allows for the natural alignment of your spine.

LOWER BACK: While your shoulders and hips are allowed to sink in, The DUX Bed rises up to support your lower back.

Shoulders sink in.

NECK: Allowing your shoulders to sink in can also provide relief from neck and circulatory problems.
