

THE DUX 12:12+

CLASSIC DUX SUPPORT WITH DEEPER SPRINGS

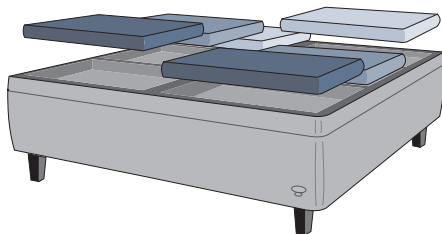

The DUX 12:12+ offers classic DUX support with deeper springs for added contouring in addition to the customizable Pascal Personal Comfort Zones. This combination offers you the comfort and support that you've come to expect from a DUX bed.

EXPERIENCE THE DUX DIFFERENCE

>> Swedish Steel Springs

At the heart of the DUX 12:12+ are Swedish steel springs — nearly 3 times as many as an ordinary bed. More springs provide better contouring for your body, reducing pressure points which can help improve circulation.

>> Pascal Personal Comfort Zones

Everyone's body is unique. That's why the DUX 12:12+ features the Pascal Personal Comfort Zones, enabling each person to select the perfect setting for their shoulders, lower back and legs.

>> Extra Support

At DUX we offer you three top pads to choose from as an integral part of your DUX 12:12+. These include the deeply tufted Xstandard, Xsupport and Duxense top pads.
