

THE DUX 8888

THE ULTIMATE IN LUXURY AND COMFORT

The DUX 8888 provides you with the ultimate sleep experience as it represents the culmination of over 80 years of research and development in the bed making craft. Not only have we crafted it out of the finest materials, but also we added revolutionary features — from our dynamically interlocking springs forged from Swedish steel to our Pascal Personal Comfort Zones system to our exclusive independently Adjustable Lumbar Support.

EXPERIENCE THE DUX DIFFERENCE

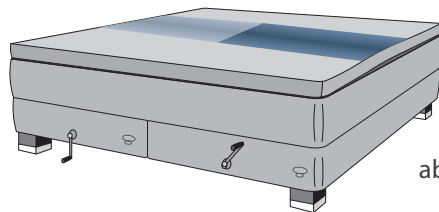

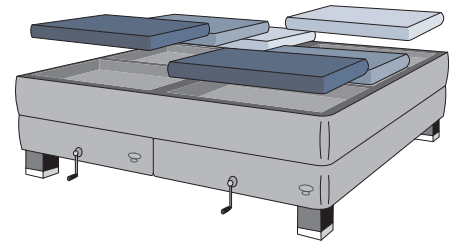

>> Swedish Steel Springs

At the heart of the DUX 8888 are Swedish steel springs—nearly 4 times as many as an ordinary bed. More springs provide better contouring for your body, reducing pressure points which can help improve circulation.

>> Pascal Personal Comfort Zones

Everyone's body is unique. That's why the DUX 8888 features the Pascal Personal Comfort Zones, enabling each person to select the perfect setting for their shoulders, lower back and legs.

>> Adjustable Lumbar Support

To crank it up a notch, the DUX 8888 offers independent Adjustable Lumbar Support for each side of the bed.

>> Extra Support

At DUX we offer you three top pads to choose from as an integral part of your DUX 8888. These include the deeply tufted Xstandard, Xsupport and Duxense top pads.
